

PAINTING ACCESSORIES

A complete range of accessories for painting, fundamental for guaranteeing the quality of work.

From air flow regulators for constantly controlling the inlet pressure to filters and sieves for the paint product. This range is completed with a handy holder for 2 spray guns, which can be fixed with the supplied magnet and/or screws.

MASK

Complete with helmet, visor and internal air regulator; required for workman's safety in the paint booth.

SUPPORTER

Valid support for 2 air guns with cup, cabin wall mountable with magnet or screws.

OVERALLS

Made of Nylon with an anti-static finish, it is the solution required to work in the paint booth.

The anti-static finish makes it paint fume repellent.

SIEVE

Required to filter product when preparing paint before application.

VISCOMETER

Indispensable in Hostaform® to check density, commonly called the "Ford 4 cup" by workers.

SSP2

Tank with 2 lt capacity ideal for painting large surfaces; made of anodized aluminium, it can be used with any type of paint.

REGULATOR

- Air flow regulator with glass manometer and metal case to be fitted at the inlet of the spray gun.
- **Manometer:** scale 0-10 Bar/0-140 PSI
- **Air inlet:** 1/4" U compatible with several 1/4" standards

REF.

90105/W

1 pcs.

150 gr.

REGULATOR

- Air flow regulator to be fitted at the inlet of the spray gun
- **Air inlet:** 1/4" U compatible with several 1/4" standards

REF.

90106/W

1 pcs.

75 gr.

MANOMETER

- Spare manometer for air flow regulator

REF.					
61306	M 1/8"	0-10 Bar	40 mm	70 gr.	1 pcs.

MANOMETER PROTECTOR

- Transparent impact-resistant and paint solvent resistant manometer protector.

REF.			
90128	from 39 to 43 mm	10 gr.	10 pcs.
90129	63 mm	10 gr.	10 pcs.

CLEANING KIT

- Cleaning set indispensable for spray gun maintenance. Composition:

3 wooden needles
1 big cleaning brush
1 small cleaning brush
12 pins for cleaning the air cap

REF.		
90109/W	pack of 1 kit	30 gr.

26
27

WRENCH SET

- Set of wrench for the maintenance on "FX-FZ" spray gun series

REF.		
91000	6 pcs.	830 gr.

SUPPORTER

- Magnetic holder for spray guns with gravity cups.
It also can be fixed on non-ferrous surfaces with the supplied screws

- Features: painted steel

REF.			
60130	1 pcs.	1500 gr.	200x232x145 mm

OVERALL

- Specially designed for usage in the painting booth
- Features: special transpirant nylon
- Sizes: 52-54-56

REF.		
ARC041/52	1 pcs.	155/160 gr.
ARC041/54	1 pcs.	155/160 gr.
ARC041/56	1 pcs.	155/160 gr.

MASK

- Protective mask consisting of:
 - Visored helmet with internal ventilation
 - Regulator for internal air of the mask
 - Polyurethane hose for air plant
- Filtering kit with carbon filters
- Belt
- 5 spare adhesive visor cover
- Meet EEC standards, 89/686/EEC directive

REF.		
50400/W	1 pcs.	1200 gr.

MASK

- Protective mask consisting of:
 - Safety air reducer
 - Filtering kit with carbon filters on belt
 - Belt
- Polyurethane hose for air plant
- Meet EEC standards, 89/686/EEC directive

REF.		
50405/W	1 pcs.	950 gr.

SSP 2

- Container: anodized aluminium
- Safety valve: brass
- Material outlet: M 1/4"
- Air coupling outlet: M 1/4"
- Doubled hose: SBR/EPDM rubber with fittings; 1.5 mt length

Air inlet pressure regulator with manometer

REF.				
90014	2 lt	1200 gr.	1 Bar MAX	3 Bar MAX

HOOK

- Hook in stainless steel for the series FX and FX to be inserted on the trigger

REF.		
1011387	1 pcs.	10 gr.

FILTER

- Steam trap filter with filler component and steam release valve to be fitted at the inlet of the spray gun.

REF.		
90111/W	1 pcs.	100 gr.

FILTER

- 100-mesh complete filter for pressure fed spray guns

REF.			
60097/W	1 pcs.	50 gr.	F/M 3/8"
60098/W	1 pcs.	50 gr.	F/M 1/4"

- 100-mesh complete filter for ref. 60097

REF.		
412012/W	5 pcs.	25 gr.

FILTER

- 2000-mesh stainless steel paint filter to be attached to the suction pipe of spray guns with suction cups.

REF.			
90112/W	10 pcs.	50 gr.	

FILTER

- Nylon paint filter to be attached to the suction pipe of spray guns with suction cups.
- Specify: 5000 – 7000 – 10000 mesh

REF.*			
90113**/W	10 pcs.	65 gr.	

FILTER

- 2000-mesh nylon paint filter to be attached to the spray gun with gravity cups.

REF.			
90114/W	10 pcs.	40 gr.	2000 mesh for touch-ups
90137/W	10 pcs.	40 gr.	500 mesh for primers

28
29

GENESI FILTER

- 800-mesh nylon paint filter to be attached to the spray guns with gravity cups.

REF.			
Z065043/W	10 pcs.	40 gr.	

SIEVE

- Nylon sieve for paint
- Specify: 2000 - 5000 - 7000 - 10000 - 15000 - 17000 mesh

REF.*			
90115**/W	10 pcs.	300 gr.	

VISCOSIMETER

- "FORD 4" viscosimeter cup to test paint density.

REF.			
90116/W	3 pcs.	270 gr.	

*Add mesh number
