

BLOW GUNS

Designed and manufactured for professional use, blow guns come in three different series: PROFI – PA/4 – SOFT, in order to meet all market needs. Always practical and reliable, these products are able to meet toughest requirements, with versions enriched by a modern and innovative design.

The huge range of nozzles available makes these guns versatile and suitable for many specific applications.

The entire range is fitted with a progressive flow delivery valve.

PROFI SERIES

Suitable for professional applications, this range has a handy and practical design. The Hostaform C body makes it strong and reliable.

PA/4 SERIES

Suitable not only for professional use but also D.I.Y.: thanks to the different versions: aluminium, black and clear nylon.

SICURA NOZZLE

A scratch-proof nozzle has been designed for the PA/4 series, combining the safety features of the OSHA with anti-splintering and low noise.

SOFT SERIES

Special small and extra light (60 gr.) blow gun. Tough enough to be also used in industrial applications.
