

COMPRESSED AIR GUNS

Complete range of compressed air guns for efficiency and long term professional use in the body-shop workshop.

From standard air compressed guns to those for mono-component soundproofing protective compounds, all are manufactured with a MOPLEN body and the components are produced in brass and stainless steel. The new adjustable nozzle of the IA/L-FG allows to obtain different spray thickness according to the surface to be treated.

PC/NS - FG

Designed for soundproofing and protective body part product application, pre-packaged in cartridge.

IA/L - FG / TS

Gun for mono-component protective soundproofing product application even polyurethane and protective wax based in pre-packaged 1 lt. cans. Equipped with a 60 cm extension tube with special nozzle to spray inside boxed parts.

IM BODY

Spray gun for the application of soundproof coats for underbodies, mono-components and protective wax. The external mixing nozzle allows an even powdered product distribution on surfaces while the stainless steel needle hermetically closes the nozzle tip to prevent product hardening during work breaks. Equipped with a product flow regulator and inlet air flow regulator as well as a special safety valve.

AS/FG

- Professional blow gun with flow delivery valve.
- Body: MOPLEN
- Nozzle: nickel-plated brass

REF.			
40004/W	1 pcs.	200 gr.	MAX 6 Bar

PC/NS-FG

- Gun for applying adhesives, fillers and silicone in cartridges.
- Body: MOPLEN
- Tank: aluminium

REF.				
30038	1 pcs.	575 gr.	2-2,5 Bar	cartridge=length 225 mm diam.min ø 40 diam.max ø 50

IA/L - FG

- Gun for applying monocomponent soundproofing protective compounds and protective wax polyurethane bases in 1 lt tins.
- **Body:** MOPLEN
- **Nozzle:** adjustable spray
- **Length of suction tube:** 230 mm
- **Connector:** with European thread
with USA thread
with Southamerican thread

REF.				
30022	European thread	260 gr.	2-2,5 Bar	1 pcs.
30022 USA	USA thread	260 gr.	2-2,5 Bar	1 pcs.
30022 AM	Southamerican thread	260 gr.	2-2,5 Bar	1 pcs.

IA/LU - FG

- Gun for applying monocomponent soundproofing protective compounds and protective wax polyurethane bases in pre-packed tins.
- **Body:** MOPLEN
- **Nozzle:** adjustable spray
- **Featuring:** 2 suction tubes (230mm and 120mm),
60 cm extension tube with special nozzle for spraying inside parts
- **Connector:** with European thread
with USA thread
with Southamerican thread

REF.				
30023	European thread	300 gr.	2-2,5 Bar	1 pcs.
30023 USA	USA thread	300 gr.	2-2,5 Bar	1 pcs.
30023 AM	Southamerican thread	300 gr.	2-2,5 Bar	1 pcs.

IM BODY

- Gun for applying soundproofing protective compounds to underbodies, single component products and protective waxes.
- **Body:** nickel plated sanded brass
- **Nozzle:** 1 short nozzle with fan-3 different types of atomising nozzles with 90 cm extensions
- **Tank:** in anodized aluminium with internal thread cartridge holder and aluminium suction tube
- **Features product flow adjustment and air inlet flow regulator**

REF.				
50242/W	1 lt.	2100 gr.	5 - 8 Bar	1 pcs.

TS

- Gun for applying single component soundproofing protective compounds including polyurethane based compounds and protective waxes in pre-packed 1 lt tins.
- **Body:** aluminium
- **Featuring:** 60 cm long extension tube with special nozzle for spraying in box sections
- **Connector:** with European thread
with USA thread
with Southamerican thread

REF.				
50244/W	European thread	540 gr.	2 - 5 Bar	1 pcs.
50245/W	USA thread	540 gr.	2 - 5 Bar	1 pcs.
50244AM/W	Southamerican thread	540 gr.	2 - 5 Bar	1 pcs.
