

INFLATING GUNS

Precise and reliable as measuring instruments, these products are used in both repair professionals and D.I.Y. field. Both series work with a single lever using a double charge/discharge of pressure action and are quipped with a PRESSURE MANOMETER SAFETY VALVE which prevents pressure needle oscillations during use, isolating it from the air flow during the inflating phase: a guarantee of precision and durability for the pressure manometer.

Available in the CEE/OM version or rather is certified in line with EUR Directive D96 18.08.02 N.71/316 concerning the gun and manometer (first test).

SUPER PG SERIES

The brass body and handy steel lever and diam.80 pressure manometer make this gun the ideal measuring instrument for the tyre centre.

PG/S SERIES

This has been the most popular inflating gun for many years among the different types of users. The nylon body makes it light, handy and ergonomic.

EEC CERTIFICATIONS

Each gun has to pass a strict tolerance test carried out according to regulations by an independent state body, in order to receive approval.

SUPER PG CEE/OM

- Professional inflating gun **EEC approved**
- **Body:** nickel plated brass, nylon impact-resistant handle
- **Lever:** single operation with double acting pressure filling and release lever
- **Manometer:** diam. 80 mm EEC approved-scale 0-10 Bar / 0-140 PSI
- **Length of tube:** 100 cm
- **Pressure-manometer protecting safety valve**

REF.				
50100/O	1 pcs.	910 gr.	1 - 6 Bar	

SUPER PG/G CEE/OM

- Professional inflating gun **EEC approved, for twin or spoked wheels.**
- **Body:** nickel plated brass, nylon impact-resistant handle
- **Lever:** single operation with double acting pressure filling and release lever
- **Manometer:** diam. 80 mm EEC approved-scale 1-10 Bar/0-140 PSI
- **Length of tube:** 100 cm
- **Pressure-manometer protecting safety valve**
- **Brass inflating head, 30 cm long**

REF.				
50101/O	1 pcs.	1025 gr.	1 - 6 Bar	

SUPER PG

- Professional inflating gun.
- **Body:** nickel plated brass, nylon impact-resistant handle
- **Lever:** single operation with double acting pressure filling and release lever
- **Manometer:** diam. 80 mm EEC approved-scale 1-10 Bar/0-140 PSI
- **Length of tube:** 100 cm
 - Pressure-manometer protecting safety valve

REF.				
50140	1 pcs.	800 gr.	1 - 6 Bar	

SUPER PG/G

- Professional inflating gun, **for twin or spoked wheels**
- **Body:** nickel plated brass, nylon impact-resistant handle
- **Lever:** single operation with double acting pressure filling and release lever
- **Manometer:** diam. 80 mm EEC approved-scale 1-10 Bar/0-140 PSI
- **Length of tube:** 100 cm
 - Pressure-manometer protecting safety valve
 - Brass inflating head, 30 cm long

REF.				
50141	1 pcs.	930 gr.	1 - 6 Bar	

PG/S CEE/OM

- Inflating gun **EEC approved.**
- **Body:** nylon
- **Lever:** single operation with double acting pressing filling and release lever
- **Manometer:** diam. 63 mm EEC approved-scale 0-10 Bar/0-140 PSI
- **Length of tube:** 80 cm
 - Pressure-manometer protecting safety valve

REF.				
50108/O	1 pcs.	460 gr.	1 - 6 Bar	

PG/SG CEE/OM

- Inflating gun EEC approved, **for twin or spoked wheels**
- **Body:** nylon
- **Lever:** single operation with double acting pressure filling and release lever
- **Manometer:** diam 63 mm EEC approved-scale 0-10 Bar/0-140 PSI
- **Length of tube:** 80 cm
 - Pressure-manometer protecting safety valve

REF.				
50109/O	1 pcs.	590 gr.	1 - 6 Bar	

PG/S

- Inflating gun
- **Body:** nylon
- **Lever:** single operation with double acting pressure filling and release lever
- **Manometer:** diam. 63 mm double scale Bar/PSI
- **Length of tube:** 80 cm
 - Pressure-manometer protecting safety valve

REF.				
50106	1 pcs.	440 gr.	1 - 6 Bar	

PG/SG

- Inflating gun, for twin or spoked wheels.
- **Body:** nylon
- **Lever:** single operation with double acting pressure filling and release lever
- **Manometer:** diam. 63 mm double scale Bar/PSI
- **Length of tube:** 80 cm
 - Pressure-manometer protecting safety valve
 - Brass inflating head, 30 cm long

REF.				
50107	1 pcs.	570 gr.	1 - 6 Bar	

CP

- Pressure manometer for checking pressure
- **Length of tube:** 40 cm
- Diam. 63 mm - double scale Bar/PSI
- Diam. 63 mm - single scale BAR

REF.				
50120	1 pcs.	260 gr.	double scale	
50120/BAR	1 pcs.	260 gr.	single scale	

INFLATING HEAD

- Inflating head

REF.				
50121 Drop-forged Zamark	25 pcs.	560 gr.		6
50134 Drop-forged Zamark	25 pcs.	560 gr.		8
50127 Turned brass	25 pcs.	660 gr.		6
50128 Turned brass	25 pcs.	660 gr.		8

- Inflating head with PRESTA valve, PRESTA high, PRESTA high plus.
- **Use:** for racing bicycles

REF.				
50132	25 pcs.	685 gr.		

INFLATING HEAD

- Special GEM brass inflating head for twin or spoked wheels, complete with handle.
- **Length:** 30 cm
- **Compatible:** with diam. 6 and diam. 8 hose

REF.				
50123	3 pcs.	460 gr.		

- Special GEM brass inflating head for twin or spoked wheels
- **Length:** 20 cm
- **Compatible:** with diam. 6 and diam. 8 hose

REF.				
50122	3 pcs.	290 gr.		

INFLATING KIT

- 3 pieces inflating kit for bicycles, boats and balls.

REF.				
50125	1 kit for package	40 gr.
